

## Wegovy Click Counting

Each dose of Wegovy is supplied in a different pen and all of the pens are the same price. Ordering a higher-dose pen and counting the clicks to adjust to a lower dose can allow flexible dosing and cost savings. Using the pen in this manner is not approved by the manufacturer, thus, it is off-label. After first use, the pen is stable for 8 weeks at room temperature. You can safely use up to 8 doses from one pen.

Cost per pen is ~\$500 for all strengths (contains 4 regular doses)
